

I can hardly believe that a citizen/customer who has expressed a desire to block unwanted calls, and has renewed a subscription to be on a list to protect his/herself from such unwanted calls, should now have that threatened. It's enough to make you want to just disconnect your phone or discontinue service. Can't we have our home's and our personal time safe from unwanted intrusions? Come on now people. We work hard in a sometimes noisy and demanding workplace. Let's respect our own personal sanctuaries!!!
